

## **County Durham Sport – How are we funded?**

### **County Durham Sport Core Team**

County Durham Sport is core funded primarily by Sport England to provide support to National Governing Bodies of Sport to enable them to effectively operate in the county. Sport England also provides this money to enable the Core Team to support the local delivery system, through the Partnership's joint planning and working arrangements. i.e. Executive and Overview Boards, subgroups such as the Sport Strategy Steering Group, and the localised Community Sport Networks.

The County Sport Partnership is striving to increase the level of sport and physical activity undertaken in the county – the Core Team is there to support local partners to get more people more active more often by co-ordinating the production of agreed partnership plans and service developments. For example, the production of the County's Sport Strategy is being facilitated by County Durham Sport on behalf of, and with, local partners.

County Durham Sport also gets project funding from Sport England to co-ordinate and deliver specific national initiatives, such as Sport Unlimited and from 2011/12 Sportivate. These programmes are usually delivered through local partners, but managed and commissioned by the Core Team.

Local partners use the Core Team to commission and deliver projects and programmes, such as the Changing the Physical Activity Landscape Project funded by NHS County Durham and Darlington and the County Awards Scheme (funded by Durham County Council, Durham University and NHS County Durham).

### **What services do we provide?**

A summary of the services that the Core Team provides is in the table overleaf.

The range of services will potentially change following the current Best Value Review, which will determine which services are valued by partners and which of those services are best delivered by the Core Team in future.

## CDS Core Team – Service Summary 2010/11

Function	Function Description	Responsibility
